Department of Energy  
1000 Independence Avenue, S.W.  
Washington, D.C. 20585

**Subject:** Emerson Letter of Support for the HyVelocity Hub: Clean H2 from Texas and the Gulf Coast

Dear Director Crane,

Emerson is pleased to support the "HyVelocity Hub: Clean Hydrogen from Texas and the Gulf Coast", in response to the Department of Energy (DOE) Office of Clean Energy Demonstrations (OCED) Regional Clean Hydrogen Hubs Funding Opportunity Announcement DE-FOA-0002779 (CP Control Number: 2779-1501).

Emerson is a global technology and software company providing innovative solutions for the world's essential industries. Through its leading automation portfolio, including its majority stake in AspenTech, Emerson helps hybrid, process and discrete manufacturers optimize operations, protect personnel, reduce emissions, and achieve their sustainability goals.

The results of this project will modernize and upgrade our nation's energy infrastructure, accelerate our competitiveness, benefit our local communities, and create jobs, while simultaneously supporting efforts to build a clean energy economy that puts us on the path to achieve net-zero emissions economy-wide.

Please feel free to contact me if you have any questions or require any additional information.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michael Train".

Michael Train  
Senior Vice President and Chief Sustainability Officer
